## BENEFICIARIES' TESTIMONIALS

### ■ Ehsan Baby Care

Puan Nurul Hazirah has three children aged 6 years, 2 years, and 10 months. Her husband has just started working as a technician at a nearby factory. He also does side jobs on weekends to support their children's needs. Puan Hazirah is a full-time homemaker because if she worked, the cost of hiring a babysitter would be too burdensome for their finances. Sometimes, their baby supplies run out, and her husband has to earn extra money to cover the cost of buying baby essentials. They are very grateful for the assistance they receive, especially for their children.

## ■ Ehsan Warga Emas

Encik Raden is the husband of Puan Asmah, who is 73 years old. She is bedridden due to a stroke and several injuries. Puan Asmah fell and broke her knee, which has left her unable to walk. Her leg is also shortened by 1 inch due to bone complications. Currently, Puan Asmah cannot walk, and doctors are unable to perform any surgery due to her age. It has been 9 years since her knee was broken and 3 years since she became bedridden due to the stroke. Puan Asmah and Encik Raden always remind the younger generation to never forget the Quran and to be grateful for the help they receive.

## ■ Ehsan Insan Istimewa

Puan Zamilah is the wife of Encik Pozan, who has been bedridden since an accident in 2019. Encik Pozan was in a coma for nearly a year and required oxygen support for two years following the accident. His skull was fractured, and his brain swelled due to the trauma. Currently, Encik Pozan is still under regular doctor appointments to monitor his recovery. The family relies on assistance from PERKESO and JKM. Puan Zamilah is unable to work as she must devote her full attention to caring for Encik Pozan. They are grateful for the support they have received.

## ■ Ehsan Ibu Tunggal

Puan Yati Umikha, 41 years old, is a single mother. She currently lives with her parents and 10 other family members. Most of her siblings work as farmers on her father's farm. With an unstable income, it is difficult for her to support all 10 family members. Sometimes, food supplies are insufficient, and they have to go without meals to ensure their children are fed. However, with assistance from Global Ehsan Relief, the burden has been somewhat eased, allowing them to avoid going hungry that month.

## ■ Ehsan Anak Yatim

Qhalif, Qesya, and Hanan are three orphaned siblings who were raised by their mother, Puan Nashirah, a person with disabilities. She lost her leg in a tragic accident, which also caused her to lose her husband and their father. Now, they live on the assistance and kindness of Baitulmal and other NGOs, as Puan Nashirah is unable to work after the accident. Despite the challenges, Puan Nashirah continues to live for the sake of her children.

## ■ Dana Ehsan

Encik Amri, 60 years old, suffers from the effects of a stroke after falling in the restroom at his workplace. His condition has improved, and he is now able to walk, but he is still unable to do heavy tasks. Currently, his wife and children are supporting their 7-member family. Encik Amri continues to have regular doctor appointments and follows a physiotherapy routine tailored for his recovery. He is deeply grateful for the assistance he has received.
