CARE FOR ORPHANS

ORPHAN SPONSORSHIP

Since its inception in 2015, our Care for Orphans project has changed the lives of hundreds of orphaned children and their widowed mothers. We currently have more than 500 Hifz Orphans who also undergo a Hifz Quran programme, where they aim to memorise the Quran within five years. More than 300 orphans receive regular sponsorships. These orphaned children come from all over the world including Indonesia, Sri Lanka, Gaza, Cambodia, Bangladesh, India, Nepal, Senegal, and Syria. We aim to get more of our unsponsored orphans under a sponsorship by the end of the year, insyaAllah.

RINOS MUHD'S TESTIMONY

ORPHAN SPONSORSHIP - SRI LANKA

Rinos Muhd has been under GER Orphan Sponsorship for about a year now. He lives with her mother and 3 older brothers who are also studying. His mother, Sarfana, 39 years old, sells drywood for a living. They are staying in a rented house which adds burden to their expenses as they cant afford to buy a house of their own. Other than selling drywood they also sell packets of rice, manually boiling and milling padi seeds then sell the final product (rice) in small packets. His mother sometimes also does tailoring.

Muhd's father passed away when he was very young. Her mother had to be the sole breadwinner since. Alhamdulillah with sponsorship that he got, not only is able to cover his tuition expenses but also his brother's tuition expenses. Education is very expensive in Sri Lanka because what they teach in government schools is inadequate. Students will have to take on tuitions just to be on standard level. Mdm Sarfina is actually the volunteer coordinator for the orphans in that area. She will help sister Razeena, our GER Orphan Officer to gather the info that she needs from the orphaned families.

Mdm Sarafina does not take an even cent doing this volunteering work as she feels that this is a service that she can do to serve the orphans and also to show her gratitude for sponsoring her son.

CARE FOR CLEAN WATER

Clean water doesn't just benefit the people who are receiving it, it's also one of the best investments that an individual can make for the community. Delivering clean water to the most dire communities is a continuous effort. Alhamdulillah a total of 159 water projects were completed in Cambodia, Sri Lanka and Myanmar - including water wells (hand-pumps), electric water wells (deep and shallow), community water wells and ablution places. With your help, clean drinking water is now available to hundreds of families there which will help to save lives and improve their livelihood.

WATER WELLS - ELECTRIC

Our new electric water wells make it much easier to draw water from 40 metres deep into the ground providing fresh, clean water that can last a community for more than 10 years.

COMMUNITY WATER WELLS

These wells will benefit communities in some of the most deprived communities in the world, offering long-term access to clean, drinkable water.

ABLUTION PLACE

By donating an ablution place to needy communities, you will get continuous rewards and Allah's blessings for as long as the villagers benefit from it by taking their ablution and using it for their daily needs.

NAFINA'S TESTIMONY

HOMES FOR WIDOWS - SRI LANKA

Nafina, 53 years old, who is a mother of 12, lost her husband 8 years ago from throat cancer. 10 of her children are already married and live with their spouses. She is taking care of her 2 other children and also 3 grandchildren whose parents are facing financial difficulties.

A total of 6 people are living in a house of two rooms, one is mainly the kitchen and the other one is their makeshift shop. At night they have to cramp into the two rooms that they have to sleep. Their house currently has no sanitation area such as toilets or even access to clean water or electricity. They sell snacks for a living. Alhamdulillah their kind neighbour supports them and the income that they receive for the day allows them to get enough provision for a day.

During monsoon season, the water level will rise to knee level and destroy everything in their house. Hence, disrupts their business and the children couldn't study at home. Sometimes they will have to vacate their house and stay in their neighbour's house. They were immensely thrilled that their new home was on the way. The new house will have enough space for all of them - complete with toilets and electricity. The house is slightly alleviated to counter the flood problem in the future.

Qurban - Preparation Stage

SEASONAL PROJECT

QURBAN

Alhamdulillah, our Qurban Relief 2022 has been a success - and it's all thanks to you, our GER community! As a result of your generosity, we were able to share the blessings of Eid ul-Adha with over 289,000 beneficiaries in 35 countries worldwide, all across Asia, the Middle East and Africa. We also launched our Qurban Packages that were offered last year, as well as a few additional packages, such as Chilled Qurban. We especially focused on providing Qurban aid packages to orphan families and refugees.

Your charity provided them with much needed meat for them to enjoy good, nutritious meals on the blessed Eid days, as well as helping to sustain them in the weeks after Eid. For the first time, our donors in Singapore were able to get their Qurban meat directly from Australia. The Qurban was performed in Australia, and once completed, the portions were delivered right to our donors' doorsteps. The other half were shipped to Gaza, where the most needed communities received the Qurban meat within three months. This means that on top of getting fresh meat on Eid, they also received Qurban meat Beyond Eid!
